(If you are using Windows machine, please check How to print check on Windows machines here)

EzCheckPrinting check writer saves customers time and money on checks because it allows customers to print professional checks with micr encoding line, logo and signature on blank stock in house easily.

You will never know who will handle your checks. The personalized bank checks are also a great way to differentiate your company and get your brand out in the marketplace.

In response to customers' requests, we release the Mac version of ezCheckPrinting. Here is the guide on how to print checks on Mac machine

Step 1: Install ezCheckPrinting cheque software for MAC version

If you have not installed ezCheckPrinting for mac version, you can download it from

http://www.halfpricesoft.com/mac-check-writer/mac_check_printing_software_download.asp

Just follow the instructions on the download page to finish the installation.

Note for new MAC customers:

Do not click the installation file again once you installed ezCheckPrinting software on your Macintosh. You can open ezCheckPrinting application by clicking the LaunchPad button, which is similar to Windows's Show Desktop button.

Step 2: Start EzCheckPrinting check writer

Click the Launchpad button, then you will see the current applications intalled on your Mac machine. Click the ezCheckPrinting icon to start this check writer application.

Step 3: Setup the bank account and add the logo image.

Click the top menu "Settings->check setup" to open the check setup page. Set up your check information and add your company logo file there.

M Check Setup	_ D X
Check Setup (A	Aug Test)
☑ Use Blank Check Stock (Uncheck it to use pre-print check sh	neet)

	cter behind or before
or aro	ound account number

Note: If you do not need to use Logo image and signature image, just delete the image path.

ALERT:

You should use jpg, bmp and gif format image files for logo and signature. MAC machine cannot support some image files such as png file. If you use a wrong image file, you may see error message "Access Violation. Press OK to ignore and risk data corruption. Press cancel to kill the program" when you print check.

Step 4: Personalize the check layout (Optional)

(If you like current layout, you can skip this step.)

Click the top menu "Settings->Check layout" to open the check layout page. You can customize the layout of your check by changing the font size, logo position, logo size or add a new label.

To customize the logo, you need to select the logo on screen. Then you can resize it or drag/drop the logo to a new position. If you are satisfied with the effect, you can save your change.
